

Shiv Kumar Ram

Full Stack Developer (React.js / Next.js / Node.js)

9831532184 | ramkrshiv2004@gmail.com | Kolkata, West Bengal - 700018 | LinkedIn | GitHub | Portfolio

CAREER SUMMARY

Full Stack Developer with hands-on experience designing and building scalable web and mobile applications using React.js, Next.js, Node.js, Express.js and MongoDB. Skilled in developing REST APIs, integrating LLM-powered features, and building responsive, production-ready user interfaces backed by strong fundamentals in Data Structures and Algorithms, Object-Oriented Programming, and backend system design.

Seeking a Full Stack Developer / Software Engineer role to apply strong problem-solving and end-to-end development skills.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Python, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST API Design, Server Actions

Databases: MongoDB, MySQL, Firebase Firestore

AI / LLM: Generative AI, LLM API Integration, Prompt Engineering, Structured JSON Output, AI-Based Feedback Generation

Tools & Platforms: Git, GitHub, VS Code, Postman, Playwright

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Authentication and Authorization, Session Management, API

Design, Version Control, System Design

PROJECTS

HireAI | AI-Powered Career & Recruitment Platform

Tech Stack: Next.js, TypeScript, Firebase Authentication, Firestore, Groq API, Llama, Tailwind CSS, Razorpay, Playwright

- Designed and developed a full-stack recruitment platform with separate recruiter and job-seeker workflows covering job posting, applications, interview scheduling, and feedback tracking.
- Integrated an LLM via the Groq API to dynamically generate role-specific interview questions based on job role, experience level, technology stack, and job description.

- Engineered a transcript-based AI feedback pipeline that produces structured candidate scores, strengths, improvement areas, and final assessments, reducing manual interview review effort.

- Implemented Firebase Authentication and designed Firestore data models for users, companies, jobs, applications, interviews, feedback, and subscriptions.

- Built an external job-ingestion pipeline using Playwright and Cheerio with duplicate detection and data normalization to keep job listings accurate and up to date.

MovieLab | Movie Discovery Platform

Tech Stack: React.js, Redux Toolkit, JavaScript, TMDB API, CSS

- Built a responsive movie discovery platform enabling users to browse popular and trending titles via the TMDB API.

- Implemented dynamic movie search and detail pages with centralized application state managed through Redux Toolkit.

EXPERIENCE

Tending To Infinity — Full Stack Developer Intern

- Built and optimized responsive, cross-browser-compatible web applications using Next.js, React.js, JavaScript, HTML, and CSS.

- Implemented server-side rendering (SSR) and reusable UI components to improve page load performance and maintainability.

- Collaborated using Git version control, and supported debugging and performance optimization across the codebase.

EDUCATION

Netaji Subhash Engineering College, Kolkata

Bachelor of Technology in Information Technology | CGPA: 8.13 | 2023 – 2027

ACHIEVEMENTS & ACTIVITIES

- Secured 1st place in an algorithmic hackathon by designing and implementing an optimized solution under time constraints.

- Won Best Innovation Idea at Hult Prize for presenting a scalable business innovation concept.
